

Submission process for the 2026 RILEM Spring Conference

- Go to <https://meteor.springer.com/RILEMSpringConvention2026> and register/login to add a conference paper.
- Complete the registration or login procedure. It can take some time to receive the email for registration.
- Go to “My papers” and add your contribution, and proceed with all the steps. You will receive a confirmation email.
- The Conference Editors will check if your contribution is fitted for the conference scope.
- If your contribution is within the scope, you will get an email, and you will need to log into the submission platform. Go to “My tasks” and follow the steps to upload your abstract or your full paper with the correct template.
- If submitted correctly, all the author(s) will get a new email.
- The contribution will be checked automatically for plagiarism and then sent for review.
- You will be informed by the editors about the reviewers' recommendation. If your contribution is accepted, please make the recommended changes (if needed) and upload the final abstract/paper using the corresponding template and delete any old files.
